Date [Today's date]

Dear [GP Name],

Your patient [Patient's name & DOB] has consented to participate in the GlucoVITAL trial. GlucoVITAL is a multicentre prospective, randomised controlled trial for patients  $\geq 50$  years undergoing elective major non-cardiac surgery, to identify association between intraoperative glucose levels and the mode of anaesthesia (TIVA vs inhalational) in patients undergoing major noncardiac surgery.

If you would like more detailed information or to discuss your patient's participation in the trial please contact the Principal Investigator for [Trust name]/ international equivalent (contact details above). The hospital will correspond with you separately regarding your patient's clinical course and treatment during this recent admission.

Yours sincerely,

Professor Gareth Ackland  
Clinical Professor of Perioperative Medicine  
Queen Mary University of London

Chief Investigator, GlucoVITAL trial
