

## Consent form for participating school

I, ....., ..... (name of school), have been informed about the research "Increasing physical activity among school students through parental autonomy support". I am aware of the purpose of the research and the methodology of the study to be carried out, and I confirm my consent to participate in the research by signing this form.

I know that I can get the necessary additional information on questions that arise during the surveys from the surveyors.

The people who carry out the survey:
