

Cleft@18-23 is a research programme taking place in the UK involving people who were born with a cleft

We want to understand what it is like for you to be a young adult who was born with a cleft and had their treatment in the UK.

Scan for more info

We are looking for young adults aged 18-23 who:

- have a cleft lip and/or palate
- had their 1st operation for their cleft before the age of 2
- had their 1st operation for their cleft in the UK
- continued their treatment in the UK
- have been discharged from their cleft centre

For taking part you will receive a £50 voucher and travel expenses covered

Contact us by email: cleft-1823@bristol.ac.uk or call/message :+44 (0) 7484 515 858
