| Subject Number | Visit Reference | Based on the assessment of the image at this visit...Could the wound be grafted? | Comments |
|----------------|-----------------|--|--|
| | V11 | No | |
| | V12 | No | |
| | V13 | No | |
| | | | |
| 01-010 | V1 (Screening) | No | |
| | V2 (Baseline) | No | |
| | V3 | No | Some crusting gone revealing wound likely smaller at baseline. Also wound small |
| | V4 | No | Small wound |
| | V5 | No | Small wound. In this visit wound split into 2 segments. Proximal one is ready, but overall not ready and small size. |
| | V6 | No | Small wound. In this visit wound split into 2 segments. Proximal one is ready, but overall not ready and small size. |
| | V7 | No | Small wound. In this visit wound split into 2 segments. Proximal one is ready, but overall not ready and small size. |
| | V8 | No | Nearly healed |
| | V9 | No | |
| | V10 | No | Nearly healed. Very small wound bed |
| | V11 | No | |
| | V12 | No | Nearly healed. Very small wound bed |
| | V13 | No | Only pinpoint areas of wound bed left. |
| | | | |
| 01-011 | V1 (Screening) | No | |
| | V2 (Baseline) | No | |
| | V3 | No | |
| | V4 | No | |
| | V5 | No | |
| | V6 | No | |
| | V7 | No | |
| | V8 | No | |
| | V9 | No | |
| | V10 | No | |
| | V11 | No / Yes | There is glare so difficult to assess if its just wet slough that lost yellowish hue or its true pink granulation |
| | V12 | No | A lot of glare |
| | V13 | No | A lot of glare |
| | | | |
