Hello, my name is Bobby. Mummy and Daddy have taken me to the doctor because I am not well. Would you like to come too? I will show you around.

Information Sheet for Children (< 6 years) Rapid Community Testing for COVID-19 Chief Investigator: Prof Richard Hobbs

The doctor wants to find out why I am feeling unwell. Why do I have cough or a high temperature or why has my smell or taste changed? The doctor is wearing a mask.

Information Sheet for Children (< 6 years) Rapid Community Testing for COVID-19 Chief Investigator: Prof Richard Hobbs

The doctor or nurse wants to take some snot from my nose and some spit from the back of my throat with a cotton stick. It won't hurt but I'll have to keep still, even though it tickles a bit! The snot or spit will be used to see why I feel poorly and to check if a new test works.

## All finished and time to go home now.

## Goodbye everyone.
