

Developing Evidence for Antidepressant Choice to Treat Depression in Huntington's Disease

End of Trial Information Sheet V1 11.05.2026

You have been taking part in a research trial investigating anti-depressants in Huntington's Disease.

TRIAL SUMMARY

- We want to know how well anti-depressants do or don't work to improve depression in HD
- we want to understand whether it is possible to run a Randomised Control Trial (RCT) looking at the effect of anti-depressants in people with HD.
- You have been taking the anti-depressant Sertraline, or a version without the antidepressant medication (placebo).

WHAT HAPPENS NOW

Your active participation in the trial has now come to an end. If you have decided to stop taking Sertraline, your trial doctor will slowly reduce the dose for your safety. During this period, they will be in regular contact to make sure you aren't experiencing any side effects. If you do experience any side effects, they will report those to the trial team.

If you continue to take Sertraline or have made the decision to start taking Sertraline, you will be given a prescription by an HD doctor or your GP. Make sure to talk to your HD doctor or GP if you experience any side effects.

If you are part of ENROLL-HD or HDClarity, we will be requesting information about your disease progression and blood and cerebral spinal fluid samples in 6 months' time.

When you join the study	Day 7 Telephone call	4 Weeks	8 Weeks Telephone Call	6 Months In person clinic visit	6-12 Month	12 Months
Clinical assessment Questionnaires Blood sample Lumbar puncture if part of HDClarity	Check to see if you are experiencing any side effects	Collect Medication	Questionnaires	Clinical assessment Questionnaires Blood sample	Monitor Sertraline withdrawal (if appropriate)	Data collected from ENROLL-HD, if part of ENROLL-HD HDClarity Samples if relevant

CONTACT FOR FURTHER INFORMATION

If you have any questions or would like further information about the trial, please contact DEVISEHD@Cardiff.ac.uk or your hospital trial team.

Even though your participation has ended, the trial is still ongoing. We will keep you updated with regular newsletter and we will send you a copy of the results when these are available.

Don't forget if you are attending a visit in person, you can be reimbursed for travel costs
