Child information sheet

What is a study?

A research study is what you do when you want to learn about something or discover something new.

Who we are

Hi, my name is Tanya, and my job is to find out about schools and pupils like you at school.

Would you like to help me with my work?

I want to find out how you feel when you are at school and what your sensory experience of school is like. You do not have to if you do not want to.

What are we doing?

We are trying to determine what the school can do to support people with sensory differences.

What do you have to do?

If you want to help, I will ask you to:

- Meet with me to answer some questions
- Take part in some arts-based activities
- Talk about the drawings/pictures you create

Afterwards, we will

Talk about your answers
Talk about your pictures/drawings
You will be invited onto a school day trip, and it is your decision whether to attend

If you decide to start to change your mind, you can stop at any time.

Who gets to see your answers?

I will keep your answers and drawings safe by anonymising everything you give me. This means no one other than me will know what you have created. I will take your name off your work.

I will keep your answers for 3 years and then delete them.

If you want to know more, please ask your mum, dad, the person who looks after you or the school staff as I have given them extra information about this.

What Do You Do Now?

If you have any questions, please ask me, the school staff, your mum, your dad, or the person who looks after you.

Let the school staff or me know if you want to participate.

Complete the consent form given to you with this information sheet. School staff can help you complete this form and hand it to me.
