# Study information

## Scientific Title

Interactive Video Disk and Patient Treatment Choices for benign prostatic hyperplasia (BPH)

## Study objectives

The objective was to determine whether the provision of detailed information about BPH treatment options and outcomes via an interactive video disk affected patient decision making.

## Ethics approval required

Old ethics approval format

## Ethics approval(s)

Not provided at time of registration

## Study design

Randomised controlled trial

## Primary study design

Interventional

## Secondary study design

Randomised controlled trial

## Study setting(s)

Not specified

## Study type(s)

Treatment

## Participant information sheet

## Health condition(s) or problem(s) studied

Urological and genital diseases: benign prostatic hyperplasia (BPH)

## Interventions

1. Video viewing
2. Standard care

## Intervention Type

Other

## Phase

Not Applicable

## Primary outcome measure

Providing detailed information about the risks and benefits of treatment via the interactive video did not significantly appear to affect treatment choice. The interactive video was considered acceptable and easy to understand by patients, and despite the lack of a statistically significant difference in treatment choice, we cannot exclude the possibility that important

shifts in the decision making process may occur, when a video such as this is introduced into clinical practice.

**Secondary outcome measures**

Not provided at time of registration

**Overall study start date**

01/10/1994

**Completion date**

01/02/1999

## Eligibility

**Key inclusion criteria**

Patients from the Urology Department at Ashford Hospital, Middlesex.

**Participant type(s)**

Patient

**Age group**

Not Specified

**Sex**

Male

**Target number of participants**

Not provided at time of registration

**Key exclusion criteria**

Not provided at time of registration

**Date of first enrolment**

01/10/1994

**Date of final enrolment**

01/02/1999

## Locations

**Countries of recruitment**

England

United Kingdom

**Study participating centre**

Health Promotion Sciences Unit

London
