Study information

Scientific Title

Study objectives

Is prolonged retention of teeth after orthodontic treatment worthwhile? Should we retain/hold teeth in place for 1 year or 5 years?

Ethics approval required Old ethics approval format

Ethics approval(s) Not provided at time of registration

Study design Randomised controlled trial

Primary study design Interventional

Secondary study design Randomised controlled trial

Study setting(s) Not specified

Study type(s) Not Specified

Participant information sheet

Health condition(s) or problem(s) studied Oral Health: Orthodontics

Interventions Retain/hold teeth in place for 1 year or 5 years

Intervention Type Other

Phase Not Specified

Primary outcome measure Tooth alignment, caries, periodontal health

Secondary outcome measures Not provided at time of registration

Overall study start date 01/12/2003

Completion date

01/12/2009

Eligibility

Key inclusion criteria

Patients attending the orthodontic department at Stepping Hill Hospital who are due to have their braces removed.

Participant type(s) Patient

Age group Not Specified

Sex Not Specified

Target number of participants Not provided at time of registration

Key exclusion criteria Not provided at time of registration

Date of first enrolment 01/12/2003

Date of final enrolment 01/12/2009
