# Study information

## Scientific Title

### Study objectives

After an initial pilot study to test the viability of dubbing English voices on to American video tapes, this project now comprises a randomised control trial comparing patient training packages using newly dubbed video tapes with conventional management in child psychiatry centres. The project incorporates an evaluation of the cost effectiveness of the intervention and will follow-up both groups to determine whether gains have been maintained.

### Ethics approval required

Old ethics approval format

### Ethics approval(s)

Added 20/11/09: Approval received from each of the relevant ethics committees at each of participating centres

### Study design

Randomised controlled parallel group trial

### Primary study design

Interventional

### Secondary study design

Randomised controlled trial

### Study setting(s)

Other

### Study type(s)

Treatment

### Participant information sheet

### Health condition(s) or problem(s) studied

Conduct disorders

### Interventions

A randomised block format was used. Each block comprised one of three conditions:

1. Parenting groups (PG)
2. Standard treatment (ST)
3. Waiting list controls (WL)

### Intervention Type

Other

### Phase

Not Applicable

**Primary outcome measure**

Measures on a range of child and parent characteristics were taken before and after treatment /being on the waiting list, an interval of 6 months. Those allocated to ST or PG conditions were followed up on all measures one year after the end of treatment. Those on the WL, were not studied further, but were offered treatment.

**Secondary outcome measures**

Not provided at time of registration

**Overall study start date**

01/09/1994

**Completion date**

01/12/1998

**Eligibility****Key inclusion criteria**

All referrals for conduct disorder problems in children aged 3-8 years to specialist services.

**Participant type(s)**

Patient

**Age group**

Child

**Lower age limit**

3 Years

**Upper age limit**

8 Years

**Sex**

Both

**Target number of participants**

Not provided at time of registration

**Key exclusion criteria**

Added 20/11/09:

1. Clinically apparent major developmental delay
2. Hyperkinetic syndrome
3. Any other condition requiring separate treatment

**Date of first enrolment**

01/09/1994

**Date of final enrolment**

01/12/1998
