Study information

Scientific Title

Evaluation of Community Link Team - The effect of a community link team in facilitating early discharges from inpatient care

Study objectives

What is the effect of intensive community support to facilitate early discharge from inpatient care on patients and re-admission rates?

Ethics approval required

Old ethics approval format

Ethics approval(s)

Not provided at time of registration

Study design

Randomised controlled trial

Primary study design

Interventional

Secondary study design

Randomised controlled trial

Study setting(s)

Hospital

Study type(s)

Other

Participant information sheet

Health condition(s) or problem(s) studied

Early discharge from hospital

Interventions

Not provided at time of registration

Intervention Type

Other

Phase

Not Applicable

Primary outcome measure

1. Demographic data
2. Occupied bed days
3. Patient and carer satisfaction questionnaires - collected via standard information sheets and results analysed
4. Occupied bed days saved
5. Quality of life
6. Patient need

Secondary outcome measures

Not provided at time of registration

Overall study start date

01/08/1999

Completion date

31/03/2001

Eligibility

Key inclusion criteria

Admissions to acute inpatient care.

Participant type(s)

Patient

Age group
