Plain English summary of protocol

Background and study aims

Having sex plays a very important role in the success and sustainability of the family center. Understanding sexual function can lead to sexual satisfaction and ultimately to marital satisfaction that plays an important role in the reconciliation of spouses.

The aim of this study was to evaluate the effectiveness of group sex therapy training on sexual function and marital satisfaction of couples.

Who can participate?

All couples visiting Mashhad-based consultation clinics in 2019 and diagnosed with marital dissatisfaction and sexual function disorders by psychologists and psychiatrists at the clinics

What does the study involve?

The experimental group receives 10 group sex-skills education sessions and the control group receives no education.

What are the possible benefits and risks of participating?

The benefits are that participants will receive therapy for sexual problems. There is no risk to the participants.

Where is the study run from?

Bahar Consulting Center, Mashhad, Iran

When is the study starting and how long is it expected to run for?

March 2019 to May 2019

Who is funding the study?

Investigator initiated and funded

Scientific Title
The efficiency of group sex-therapy skills education on sexual function and marital satisfaction in couples

Study objectives
Are sex-therapy skills educations effective in sexual function and marital satisfaction?

Ethics approval required
Old ethics approval format

Ethics approval(s)

Approved 15/04/2019, Institute Mabtakran Regional Research Ethics Committee (Abadan, Iran; +989159616152; info@mabtakeranshargh.ir), ref: IMP2354

Study design

Semi-experimental study pretest-posttest method with a control group

Primary study design

Interventional

Study type(s)

Quality of life

Health condition(s) or problem(s) studied

Marital dissatisfaction and sexual function disorder

Interventions

After securing a permission from the director of Mashhad-based consultation clinics and creating an effective relationship with the couples, 40 couples (men and women) were selected among all the couples diagnosed with marital dissatisfaction and sexual function disorder (diagnosed by the resident psychologist or psychiatrist). Participation was voluntarily and the participants filled an informed letter of consent. Afterwards, the participants were grouped randomly into control and experiment groups and all filled out the questionnaires (EMSQ and SFQ) (pretest). Then, the experiment group received 10 group sex-skills education sessions and the control group received no education. Afterwards, the participants filled out the questionnaires once more (posttest). A summary of the content of educational sessions is listed below:

1. Introduction and briefing
2. Discussing common beliefs about sexual matters and cultural/religious attitudes
3. Anatomy and physiology of sexual behavior based on Dord Pattern in man and woman
4. Introducing interests, preferences, and sexual differences in men and woman and accepting the evident and semi-evident differences
5. Relaxation, fantasizing and regular desensitization
6. Emotional concentration 1
7. Emotional concentration 2 and giving feedback to each other
8. Kegel practices
9. Masturbation practices, introduction to the benefits of sexual relationship for physical and mental health
10. Introduction to sexual function disorders and the causes

Intervention Type

Behavioural

Primary outcome(s)

Marital satisfaction measured using the ENRICH Marital Satisfaction Questionnaire (EMSQ) at baseline and end of therapy.

Key secondary outcome(s)

Sexual function measured using the Sexual Function Questionnaire (SFQ) at baseline and end of therapy.

Completion date

25/05/2019

Eligibility

Key inclusion criteria

1. Desire to participate
2. Reading/writing literacy
3. No psychological disorder
4. No physical disease
5. Diagnosed with marital dissatisfaction and sexual function disorder according to psychologists or psychiatrists at the clinics

Participant type(s)

Healthy volunteer

Healthy volunteers allowed
