# Study information

#### Scientific Title

Comparison of duodenum-preserving pancreatic head resection after Frey and after Berner as treatment of chronic pancreatitis

## **Acronym**

Frey-Berner

# **Study objectives**

Both surgical procedures are accepted as treatment for patients with chronic pancreatitis and chronic pain. They are both pancreatic tissue preserving in comparison to classic Whipple-procedure. The procedure after Berner is the shorter and less invasive surgical procedure with less resection of pancreatic tissue. Assuming an equal outcome in patients with chronic pancreatitis, the modification of Berner could be the gold standard as the least invasive and tissue resecting procedure.

## Study design

Randomised controlled trial

# Primary study design

Interventional

# Secondary study design

Randomised controlled trial

## Study setting(s)

Not specified

# Study type(s)

Treatment

# Participant information sheet

# Health condition(s) or problem(s) studied

Chronic pancreatitis

#### **Interventions**

Two surgical procedures in comparison - duodenum-preserving pancreatic head resection after Berner and after Frey.

#### Intervention Type

Other

#### **Phase**

**Not Specified** 

# Primary outcome measure

Quality of life

# Secondary outcome measures

- 1. Local complications
- 2. Mortality
- 3. Morbidity
- 4. Exocrine and endocrine pancreatic function

# Overall study start date

01/03/2005

# Completion date

01/08/2007

# **Eligibility**

# Key inclusion criteria

- 1. Chronic pancreatitis
- 2. Chronic pain greater than 1 year
- 3. Complications of chronic pancreatitis as duodenal stenosis or treatment resistent pancreatic duct stenosis

# Participant type(s)

**Patient** 

# Age group

Adult

#### Sex

Both

# Target number of participants

66 patients - 33/group

# Key exclusion criteria

- 1. Chronic pancreatitis without involvement of pancretic head
- 2. Hints for malignant pancreas disorders
- 3. Not cured cancer or chemotherapy or radiation within last 5 years

#### Date of first enrolment

01/03/2005

## Date of final enrolment

01/08/2007
