Study information

Scientific Title

A multicentre, randomised controlled trial comparing intensive structured education with standard education in 11 - 16 year olds on intensive insulin therapy

Acronym

Study objectives

Kids In Control OF Food: a multi-centre, cluster randomised controlled trial comparing structured education (the KICK-OFF course) with standard care in 11 - 16 year olds with type 1 Diabetes (T1DM) on intensive insulin therapy.

More details can be found here: <http://public.ukcrn.org.uk/Search/StudyDetail.aspx?StudyID=5015>

Ethics approval required

Old ethics approval format

Ethics approval(s)

North Sheffield Local Research Ethics Committee, 18/09/2008, ref: 08/H1308/201

Study design

Multicentre randomised interventional treatment trial

Primary study design

Interventional

Study type(s)

Treatment

Health condition(s) or problem(s) studied

Topic: Diabetes Research Network, Medicines for Children Research Network; Subtopic: Type 1 , All Diagnoses; Disease: Diabetic Control, Education, Insulin Initiation, Nutrition, Paediatric, Service delivery

Interventions

Intervention: 5 day, outpatient, skills training course, designed and piloted specifically for this age group

Control: Standard care

Treatment and follow-up duration: 24 months in both arms

Intervention Type

Other

Phase

Phase III

Primary outcome(s)

Change in HbA1c %, measured at baseline, 6 months, 12 months and 24 months

Key secondary outcome(s))

Measured at baseline, 6 months, 12 months and 24 months:

1. Change in psychological outcome in parents and children
2. Changes in weight, height and body mass index (BMI)
3. Diet related behaviours

4. Health economic analysis
5. Health economic modelling of long term cost/benefits
6. Change in the number and severity of hypoglycaemic episodes

Completion date

31/08/2012

Eligibility

Key inclusion criteria

1. T1DM of at least 1 year's duration
2. Already on or willing to use multiple dose insulin (MDI)
3. Aged 11 - 16 years (in Secondary School years 7 - 12), either sex

Participant type(s)

Patient

Healthy volunteers allowed

No

Age group

Child

Lower age limit

11 years

Upper age limit

16 years

Sex

All

Key exclusion criteria

1. Factors which will impair group participation
2. Non-English speaking
3. Learning disability - additional help in school
4. Major behavioural problems
5. Evidence of an eating disorder
6. Associated illness that may influence control

Date of first enrolment

01/09/2008

Date of final enrolment

31/08/2012
