## Additional identifiers

### Protocol serial number

N0123138185

## Study information

### Scientific Title

Examining the benefits of providing psychotherapy for palliative care patients and their carers

## **Study objectives**

The aim of this study is to ascertain if palliative care patients and their carers benefit from counselling, what elements they find therapeutic, and how it improves their quality of life.

## **Ethics approval required**

Old ethics approval format

## **Ethics approval(s)**

Not provided at time of registration

## **Study design**

Randomised controlled trial

## **Primary study design**

Interventional

## **Study type(s)**

Quality of life

## **Health condition(s) or problem(s) studied**

Palliative care counselling

## **Interventions**

Patients and their carers are randomised to:

1. Psychotherapy
2. Care as usual

## **Intervention Type**

Other

## **Phase**

Not Applicable

## **Primary outcome(s)**

Examining the benefits of providing psychotherapy for palliative care patients and their carers.

## **Key secondary outcome(s)**

Not provided at time of registration

## **Completion date**

01/11/2004

## **Eligibility**

### **Key inclusion criteria**

Palliative care patients

### **Participant type(s)**

Patient

**Healthy volunteers allowed**

No

**Age group**

Not Specified

**Sex**

Not Specified

**Key exclusion criteria**

Not provided at time of registration

**Date of first enrolment**

01/11/2001

**Date of final enrolment**

01/11/2004

## Locations

**Countries of recruitment**

United Kingdom

England

**Study participating centre**
