# Study information

## Scientific Title

## Study objectives

Not provided at time of registration

## Ethics approval required

Old ethics approval format

## Ethics approval(s)

Not provided at time of registration

## Study design

Randomised controlled trial.

## Primary study design

Interventional

## Study type(s)

Diagnostic

## Health condition(s) or problem(s) studied

Cardiovascular diseases: Thromboembolic disease

## Interventions

Guideline - national guidelines for prophylaxis of deep vein thromboembolism based on systematic review, developed by multi-disciplinary group and evidence-linked recommendations:

1. Educational outreach visits to ward staff
2. Reminder systems at the times of consultation
3. Role substitution involving nursing or pharmacy staff assessing patients' risk status

## Intervention Type

Other

## Phase

Not Specified

## Primary outcome(s)

Not provided at time of registration

## Key secondary outcome(s)

Not provided at time of registration

## Completion date

01/09/1999

## Eligibility

**Key inclusion criteria**

Health care workers in hospital settings - senior and junior doctors, nurses, pharmacists.

**Participant type(s)**

Patient

**Healthy volunteers allowed**

No

**Age group**

Not Specified

**Sex**

Not Specified

**Key exclusion criteria**

Not provided at time of registration

**Date of first enrolment**

01/09/1997

**Date of final enrolment**

01/09/1999

**Locations****Countries of recruitment**

United Kingdom

Scotland

**Study participating centre**
