Study information

Scientific Title

Acronym

LAPDIV-CAMIC

Study objectives

Not provided at time of registration

Ethics approval required

Old ethics approval format

Ethics approval(s)

Not provided at time of registration

Study design

Randomised controlled trial

Primary study design

Interventional

Study type(s)

Treatment

Health condition(s) or problem(s) studied

Diverticular disease of the sigmoid colon

Interventions

Laparoscopic or open sigmoid resection

Intervention Type

Other

Phase

Not Applicable

Primary outcome(s)

Not provided at time of registration

Key secondary outcome(s))

Not provided at time of registration

Completion date

30/04/2005

Eligibility

Key inclusion criteria

Patients scheduled for elective resection of the sigmoid colon because of diverticular disease

Participant type(s)

Patient

Healthy volunteers allowed

No

Age group

Not Specified

Sex

Not Specified

Key exclusion criteria

Not provided at time of registration

Date of first enrolment

01/04/2003

Date of final enrolment

30/04/2005

Locations

Countries of recruitment

Germany
