Study information

Scientific Title

Study objectives

Does the use of the operating microscope cover decrease the number and type of bacteria found on the surgeon's gloves in otological procedures?

Ethics approval required

Old ethics approval format

Ethics approval(s)

Not provided at time of registration

Study design

Randomised controlled trial

Primary study design

Interventional

Secondary study design

Randomised controlled trial

Study setting(s)

Not specified

Study type(s)

Not Specified

Participant information sheet

Health condition(s) or problem(s) studied

Otological procedures

Interventions

Prospective computer randomised controlled trial:

1. Operating microscope covers
2. Alcowipes

Intervention Type

Other

Phase

Not Specified

Primary outcome measure

A reduction in time consumption and expense in applying operating microscope covers.

Secondary outcome measures

Not provided at time of registration

Overall study start date

17/05/2000

Completion date

17/05/2003

Eligibility

Key inclusion criteria

40 Patients.

Participant type(s)

Patient

Age group

Not Specified

Sex

Not Specified

Target number of participants

40

Key exclusion criteria

Not provided at time of registration

Date of first enrolment

17/05/2000

Date of final enrolment

17/05/2003
