Study type(s)

Other

Participant information sheet

Health condition(s) or problem(s) studied

Mental and Behavioural Disorders: Alcohol dependence

Interventions

Randomised controlled trial of the use of telephone prompting on attendance for appointments

Intervention Type

Other

Phase

Not Specified

Primary outcome measure

Attendance at the selected outpatient or day treatment sessions.

Secondary outcome measures

Not provided at time of registration

Overall study start date

01/09/2004

Completion date

01/06/2005

Eligibility

Key inclusion criteria

Adults attending out-patient/day treatment services from a alcohol misuse service in Merseyside.

Participant type(s)

Patient

Age group

Adult

Sex

Both

Target number of participants

172

Key exclusion criteria

Clients that chose residential treatment, or clients that request no treatment will not be asked to participate in the study. Also those without a telephone.

Date of first enrolment

01/09/2004

Date of final enrolment

01/06/2005
