Participant information sheet

Not available in web format, please use the contact details below to request a patient information sheet

Health condition(s) or problem(s) studied

Injury, Occupational Diseases, Poisoning: Clavicular fracture

Interventions

Randomised to either conservative or operative treatment

Intervention Type

Other

Phase

Not Specified

Primary outcome measure

Not provided at time of registration

Secondary outcome measures

Not provided at time of registration

Overall study start date

12/12/2002

Completion date

01/05/2004

Eligibility

Key inclusion criteria

Patients with midshaft clavicular fractures

Participant type(s)

Patient

Age group

Not Specified

Sex

Not Specified

Target number of participants

40 patients

Key exclusion criteria

Does not match inclusion criteria

Date of first enrolment

12/12/2002

Date of final enrolment

01/05/2004

Locations
