Ethics approval required

Old ethics approval format

Ethics approval(s)

Not provided at time of registration.

Study design

Randomised controlled trial

Primary study design

Interventional

Study type(s)

Not Specified

Health condition(s) or problem(s) studied

Cardiovascular

Interventions

Patients were enrolled either into educational classes and exercise training 6 h/week for 8 weeks plus conventional medical management or conventional medical therapy alone. Costs of equipment and staff salary were estimated. A set of quality of life (QOL) questionnaires was used to collect data by interviewing.
