## Study information

**Scientific Title**

**Study objectives**

How practical and acceptable is the early use of compression stockings in vulval cancer patients after receiving treatment?

This is a pilot study to investigate the feasibility of the early use of Compression Stockings in reducing the incidence and severity of lymphoedema after treatment of vulval cancer. The findings are to be used to develop a future randomised controlled trial which will be a multicentre national study.

**Study design**

Randomised controlled trial

**Primary study design**

Interventional

**Study type(s)**

Not Specified

**Health condition(s) or problem(s) studied**

Cancer: Vulval

**Interventions**

Our hypothesis is that the use of compression stockings soon after treatment for vulval cancer is acceptable to patients and is worthy of investigation in the prevention of systematic lymphoedema in the form of a randomised controlled trial.

Participants will be randomised using sealed envelopes into two groups: either to wear compression stockings for 6 months starting within 3 days of cancer treatment (treatment group) or not to wear them (control group). Participants in both groups will receive all the usual treatment of vulval cancer including on leg care (otherwise known as Best Supportive Care).

**Intervention Type**

Other

**Phase**

Not Specified

**Primary outcome(s)**

Feasibility and acceptability of applying compression stockings.

**Key secondary outcome(s)**

Not provided at time of registration

**Completion date**

## Eligibility

### Key inclusion criteria

20 Patients diagnosed with vulvar cancer of at least FIGO stage 1A.

### Participant type(s)

Patient

### Healthy volunteers allowed

No

### Age group

Not Specified

### Sex

Female

### Key exclusion criteria

All patients diagnosed with vulvar cancer greater than stage 1A.

### Date of first enrolment

29/12/2005

### Date of final enrolment

01/01/2012

## Locations

### Countries of recruitment

United Kingdom

England

### Study participating centre

Gateshead Health NHS Foundation Trust

Gateshead

United Kingdom
