Study information

Scientific Title

Pilot RCT to assess the impact of additional supported standing practice on functional ability post stroke

Study objectives

To assess the effect of providing extra sessions of standing practice on functional recovery after stroke.

Ethics approval required

Old ethics approval format

Ethics approval(s)

Not provided at time of registration

Study design

Pilot randomised controlled trial

Primary study design

Interventional

Study type(s)

Treatment

Health condition(s) or problem(s) studied

Cardiovascular: Stroke

Interventions

People who fill the criteria for inclusion will be invited to participate and after giving informed consent will be randomly allocated to one of the two treatment groups. The pilot will admit a total of twenty participants who will be randomly allocated to either the group for conventional physiotherapy or the group with conventional physiotherapy plus additional standing practice.

Intervention Type

Other

Phase

Not Specified

Primary outcome(s)

A battery of outcome measures will be recorded throughout the study. These are measures when the participant is asked to perform a number of tasks such as rolling over in bed, standing up, etc. The outcome measurement typically takes about 30-45 minutes to complete. Outcome measures will be taken on a weekly basis during the inpatient stay, and then at 12 weeks after the initial assessment.

Key secondary outcome(s)

No secondary outcome measures

Completion date

30/04/2006

Eligibility

Key inclusion criteria

1. People who are received rehabilitation on the Stroke Rehabilitation Ward, Newton Abbot Hospital
2. Confirmed diagnosis of stroke
3. People who are able to participate in a rehabilitation programme (of 45 minutes of physiotherapy each working day)

Participant type(s)

Patient

Healthy volunteers allowed

No

Age group

Adult

Sex

Not Specified

Total final enrolment

17

Key exclusion criteria

The ward in question will not admit people who are unconscious or who have a diagnosis of mental health illness.

Date of first enrolment

21/02/2005

Date of final enrolment

30/04/2006
