# Study information

#### Scientific Title

### **Study objectives**

The objective of this study is to determine whether the offer of advice to those experiencing debt problems has a positive impact on their financial and general circumstances, whether it is cost-effective (from the individuals perspective) and whether the benefits of advice warrant the expenditure of public/charitable monies on its provision.

### Ethics approval required

Old ethics approval format

### Ethics approval(s)

Granted from a group of independent academic researchers (February 2005) Formal ethics approval not necessary for a trial of this type.

### Study design

Interventional, randomised, single blind controlled study

### Primary study design

Interventional

### Secondary study design

Randomised controlled trial

### Study setting(s)

Other

### Study type(s)

Quality of life

### Participant information sheet

### Health condition(s) or problem(s) studied

Anxiety

### **Interventions**

Invitation of debt advice provided over the telephone by National Debtline

### Intervention Type

Other

#### Phase

**Not Specified** 

### Primary outcome measure

The primary outcome with respect to the efficacy of debt advice will be the proportion of people with no debt problem 12 months after the offer of advice

### Secondary outcome measures

- 1. Proportion of people with debt problems after five months
- 2. Level of personal debt
- 3. Amount of monthly debt servicing payments
- 4. Ease of living on income (index)
- 5. Outlook (when debt problems will end)
- 6. Knowledge of personal financial situation
- 7. Continuity of ownership/possession of the family home
- 8. Continuity of services (utilities: water, electricity, etc.)
- 9. Loss of property through debt enforcement processes
- 10. County court judgments
- 11. Employment status
- 12. Relationship stability (relationship status)
- 13. Relationship stability (suggestion of separation)
- 14. Anxiety (index six item version of state trait anxiety index constructed by Marteau and Bekker in 1992)
- 15. Health (using EuroQoL (Eq-5D) instrument

### Overall study start date

05/05/2005

### Completion date

05/08/2006

# **Eligibility**

### Key inclusion criteria

Respondents to the screening survey who indicate they are currently experiencing a debt problem about which they have not obtained formal advice

### Participant type(s)

Patient

### Age group

Adult

#### Sex

Both

### Target number of participants

308

### Key exclusion criteria

All those without debt problems, or those with debt problems who have obtained formal advice

#### Date of first enrolment

05/05/2005

# Date of final enrolment 05/08/2006
