Study information

Scientific Title

Enhancing delivery and outcomes of vocational rehabilitation (ENDEAVOR): improving outcomes for young people with a first episode psychosis

Acronym

ENDEAVOR

Study objectives

Primary hypothesis:

To compare the effectiveness of two vocational rehabilitation interventions in helping people attain and retain employment following a first episode of psychosis.

Secondary hypothesis:

To describe the pathways, barriers and facilitators to employment in a cohort of people suffering a first episode psychosis.

Ethics approval required

Old ethics approval format

Ethics approval(s)

Charing Cross Research Ethics Committee approved on the 15th December 2008 (ref: 08/H0711/136)

Study design

Multicentre randomised interventional treatment trial

Primary study design

Interventional

Secondary study design

Randomised controlled trial

Study setting(s)

Hospital

Participant information sheet

Not available in web format, please use the contact details below to request a patient information sheet

Health condition(s) or problem(s) studied

Topic: Mental Health Research Network; Subtopic: Psychosis; Disease: Schizophrenia

Interventions

1. Supported employment
2. Return to employment/education after first episode psychosis

Study entry: single randomisation only

Intervention Type

Other

Phase

Not Applicable

Primary outcome measure

Employment status, measured at 12 months

Secondary outcome measures

Measured at 12 months:

1. Employment and education/training across follow up; qualifications obtained
2. Positive and Negative Symptom Scale (PANSS)
3. Global Assessment of Function
4. Time Budget
5. Client Service Receipt Inventory

Overall study start date

01/06/2009

Completion date

30/09/2011

Eligibility**Key inclusion criteria**

1. First episode psychosis
2. Aged 18 - 35 years, either sex

Participant type(s)

Patient

Age group

Adult

Lower age limit

18 Years

Upper age limit

35 Years

Sex

Both

Target number of participants

Planned sample size: 200; UK sample size: 200

Key exclusion criteria

1. Organic disease
2. Unable to comprehend written English
3. Unable to give informed consent

Date of first enrolment

01/06/2009

Date of final enrolment

30/09/2011
