## Plain English summary of protocol

Not provided at time of registration

## **Contact information**

**Type(s)** Scientific

**Contact name** Prof Tom Craig

## Contact details

Institute Of Psychiatry 16 De Crespigny Park London United Kingdom SE5 8AF t.craig@iop.kcl.ac.uk

# Additional identifiers

EudraCT/CTIS number

**IRAS number** 

ClinicalTrials.gov number

Secondary identifying numbers 6104

# Study information

#### Scientific Title

Enhancing delivery and outcomes of vocational rehabilitation (ENDEAVOR): improving outcomes for young people with a first episode psychosis

#### Acronym

ENDEAVOR

#### **Study objectives**

Primary hypothesis:

To compare the effectiveness of two vocational rehabilitation interventions in helping people attain and retain employment following a first episode of psychosis.

Secondary hypothesis: To describe the pathways,barriers and facillitators to employment in a cohort of people suffering a first episode psychosis.

#### Ethics approval required

Old ethics approval format

#### Ethics approval(s)

Charing Cross Research Ethics Committee approved on the 15th December 2008 (ref: 08/H0711 /136)

#### Study design

Multicentre randomised interventional treatment trial

## Primary study design

Interventional

#### Secondary study design Randomised controlled trial

Study setting(s)

Hospital

**Study type(s)** Treatment

#### Participant information sheet

Not available in web format, please use the contact details below to request a patient information sheet

#### Health condition(s) or problem(s) studied

Topic: Mental Health Research Network; Subtopic: Psychosis; Disease: Schizophrenia

#### Interventions

Supported employment
Return to employment/eduation after first episode psychosis

Study entry: single randomisation only

#### Intervention Type

Other

**Phase** Not Applicable

#### **Primary outcome measure** Employment status, measured at 12 months

#### Secondary outcome measures

Measured at 12 months:

- 1. Employment and education/training across follow up; qualifications obtained
- 2. Positive and Negative Symptom Scale (PANSS)
- 3. Global Assessment of Function
- 4. Time Budget
- 5. Client Service Receipt Inventory

Overall study start date 01/06/2009

Completion date 30/09/2011

# Eligibility

### Key inclusion criteria

1. First episode psychosis 2. Aged 18 - 35 years, either sex

**Participant type(s)** Patient

**Age group** Adult

**Lower age limit** 18 Years

**Upper age limit** 35 Years

**Sex** Both

**Target number of participants** Planned sample size: 200; UK sample size: 200

## Key exclusion criteria

Organic disease
Unable to comprehend written English
Unable to give informed consent

Date of first enrolment 01/06/2009

Date of final enrolment 30/09/2011

## Locations

**Countries of recruitment** England

United Kingdom

**Study participating centre Institute Of Psychiatry** London United Kingdom SE5 8AF

## Sponsor information

**Organisation** Kings College London (KCL) (UK)

#### Sponsor details

Institute of Psychiatry Department of Psychology Henry Wellcome Building Box PO77, 16 De Crespigny Park London England United Kingdom SE5 8AF

**Sponsor type** University/education
