Study information

Scientific Title

Evaluation of the Risk Watch Injury Prevention Education Programme in Primary Schools in Nottingham

Study objectives

Children in schools implementing the risk watch curriculum will have greater safety knowledge and skills and a higher prevalence of self reported safety behaviour than children in schools not implementing risk watch until after the data collection for the evaluation

Ethics approval required

Old ethics approval format

Ethics approval(s)

Ethics approval as of 06/02/2019:

The Lincolnshire Local Research Ethics Committee confirmed that ethical approval was not required for the trial because it did not involve NHS patients or staff, but gave an ethical review (20/09/2004, ref. 04/Q2405/62).

Previous ethics approval:

Approved by Lincolnshire local research ethics committee

Unintentional injury

Interventions

The Risk Watch Injury Prevention Education Programme

Intervention arm schools will be those in which Risk Watch is implemented.

Control arm schools will be those schools that have agreed to implement Risk Watch but have agreed not to implement it until after the data collection for the evaluation.

Intervention Type

Other

Phase

Not Specified

Primary outcome measure

Pupils' safety knowledge

Secondary outcome measures

Secondary outcome measures will include pupils' self reported safety behaviour and safety skills and teachers' views on the Risk Watch programme.

Overall study start date

15/09/2004

Completion date

14/09/2005

Eligibility

Key inclusion criteria

Children in years 3, 4 and 5 in primary schools who have agreed to participate in the evaluation

Participant type(s)

Patient

Age group

Child

Sex

Both

Target number of participants

One class in year 3, 4 or 5 in 20 schools - approx 500 children

Key exclusion criteria

Does not match inclusion criteria

Date of first enrolment

15/09/2004

Date of final enrolment

14/09/2005
