Study information

Scientific Title

Acronym
AFPFO/05/02

Study objectives

1. Physical activity enhances the health related to quality of life and physical fitness
2. Aquatic training is a cost-effective strategy in persons with fibromyalgia

Ethics approval required

Old ethics approval format

Ethics approval(s)

Approved by the Bioethical Committee of University of Extremadura on 10/02/2002 (ref: 05/02)

Study design

Randomised controlled trial

Primary study design

Interventional

Study type(s)

Quality of life

Health condition(s) or problem(s) studied

Fibromyalgia

Interventions

Patients are randomised to three groups:

Group 1: Aquatic training, 3 sessions per week for 3 months - 18 patients

Group 2: Usual care - 17 patients

Group 3: Land-based training, 3 sessions per week for 3 months - 30 patients

Intervention Type

Other

Phase

Not Specified

Primary outcome(s)

Group 1 versus Group 2 = Isokinetic strength and electromyographic parameters, health related quality of life -Fibromyalgia Impact Questionnaire, EQ5D and SF-36 and its utilities to study cost-effectiveness, fitness, costs

Group 1 versus Group 3 = Health related quality of life -Fibromyalgia Impact Questionnaire, EQ5D and SF-36 and its utilities to study cost-effectiveness, fitness, costs

Group 2 versus Group 3 = Health related quality of life -Fibromyalgia Impact Questionnaire, EQ5D and SF-36 and its utilities to study cost-effectiveness, fitness, costs

Key secondary outcome(s))

Group 1 versus Group 2 = Psychological aspects - State Trait Anxiety Inventory

Group 1 versus Group 3 = Psychological aspects - State Trait Anxiety Inventory

Group 2 versus Group 3 = Psychological aspects - State Trait Anxiety Inventory

Completion date

01/10/2004

Eligibility

Key inclusion criteria

Women who suffer fibromyalgia according to American College of Rheumatism diagnosis

Participant type(s)

Patient

Healthy volunteers allowed

No

Age group

Adult

Sex

Female

Key exclusion criteria

1. Contraindications to physical exercise
2. Other physical or psychological therapies
3. Cognitive disease
4. Drugs affecting the measures

Date of first enrolment

01/04/2004

Date of final enrolment

01/10/2004
