Study design

Randomised controlled trial

Primary study design

Interventional

Secondary study design

Randomised controlled trial

Study setting(s)

Not specified

Study type(s)

Treatment

Participant information sheet

Health condition(s) or problem(s) studied

Respiratory tract diseases: asthma

Interventions

1. House built to ensure low levels of allergens and pollutants
2. Standard house

Intervention Type

Other

Phase

Not Applicable

Primary outcome measure

Change in airway responsiveness from baseline will be compared in the two groups

Secondary outcome measures

Not provided at time of registration

Overall study start date

01/01/2002

Completion date

30/03/2004

Eligibility

Key inclusion criteria

Sixty families with at least two asthmatic subjects, selected from the Portsmouth City council housing waiting list

Participant type(s)

Patient

Age group

Not Specified

Sex

Not Specified

Target number of participants

60

Key exclusion criteria

Not provided at time of registration

Date of first enrolment

01/01/2002

Date of final enrolment

30/03/2004
