## Study information

## **Scientific Title**

### **Study objectives**

Executive walkrounds would improve the safety climate of providers

### **Ethics approval required**

Old ethics approval format

### **Ethics approval(s)**

Not provided at time of registration

### **Study design**

Randomised controlled trial

### **Primary study design**

Interventional

### **Secondary study design**

Single-centre

### **Study setting(s)**

Hospital

### **Study type(s)**

Other

### **Participant information sheet**

### **Health condition(s) or problem(s) studied**

Patient safety and medical errors

### **Interventions**

Executive walkrounds versus no executive walkrounds

### **Intervention Type**

Other

### **Phase**

Not Specified

### **Primary outcome measure**

Safety climate measured using the Safety Climate Survey

### **Secondary outcome measures**

Not provided at time of registration

### **Overall study start date**

01/10/2003

**Completion date**

31/03/2004

## Eligibility

**Key inclusion criteria**

All clinical areas in Memorial Hermann Hospital. The unit of randomization was clinical areas. There were 23 units - 12 control, 11 executive walkrounds.

**Participant type(s)**

Patient

**Age group**

Adult

**Sex**

Both

**Target number of participants**

All clinical areas in one hospital - 23 units.

**Key exclusion criteria**

The emergency dept was excluded.

**Date of first enrolment**

01/10/2003

**Date of final enrolment**

31/03/2004

## Locations

**Countries of recruitment**

United States of America

**Study participating centre**

6431 Fannin MSB 1.122

Houston

United States of America

77030
