Study information

Scientific Title
Assessing the effect of extended counselling on uptake and adherence to pre- antiretroviral care: A longitudinal, randomised controlled trial

Acronym

pre-ARV

Study objectives

Extended counselling is associated with increased uptake and adherence to pre-antiretroviral therapy (ART)

Ethics approval required

Old ethics approval format

Ethics approval(s)

1. Makerere University School of Public Health Higher Degrees Research and Ethics Committee, 06/01/2009
2. Uganda National Council for Science and Technology

Study design

Longitudinal double-blind multicentre randomised controlled trial

Primary study design

Interventional

Study type(s)

Treatment

Health condition(s) or problem(s) studied

Pre-ARV care adherence

Interventions

Newly screened HIV positive persons will be followed and monitored for uptake and adherence to the pre-ART care for a period of 5 months depending on the frequency of enrolment of eligible subjects. The HIV positive persons from three centres will be classified into two arms.

1. Control arm: HIV positive persons will receive the current format and text of counselling
2. Intervention arm: HIV positive persons will receive a specially packaged continuum of extended counselling

Intervention Type

Other

Phase

Not Applicable

Primary outcome(s)

Proportion of HIV positive persons with extended counselling who adhere to pre-ART care

Key secondary outcome(s)

Proportion of HIV positive persons not lost to follow up during subsequent HIV care

Completion date

02/06/2010

Eligibility

Key inclusion criteria

Adult patients (>18 years) who test HIV positive at the ART centres at the start of the study (November 2009)

Participant type(s)

Patient

Healthy volunteers allowed

No

Age group

Adult

Lower age limit

18 years

Sex

All

Key exclusion criteria

1. Patients undergoing Prevention of Mother-To-Child Transmission (PMTCT) therapy
2. Patients who are not of sound mental status
3. Those who are expected to leave the district during the period of follow-up

Date of first enrolment

02/12/2009

Date of final enrolment

02/06/2010
