#### Scientific Title

Application of adenosine-5-triphosphate infusions in palliative home care

#### **Study objectives**

- 1. Does Adenosine-5-Triphosphate (ATP) administration to terminal cancer patients improve the quality of life, in terms of functional status and health complaints such as fatigue, exhaustion and weight loss?
- 2. Does ATP infusion relieve family caregiver burden and reduce use of professional health care services?
- 3. Is application of ATP infusions in a home care setting feasible for terminal cancer patients?
