## Study information

### Scientific Title

The effects of parenting intervention on quality of life and parental confidence in management of young asthmatic children

### **Study objectives**

The study will be a randomised controlled trial comparing care as usual versus care as usual supplemented by group-delivered Triple P parenting seminars and telephone support in parents /carers of 2 - 7 year old asthmatic children.

### **Ethics approval required**

Old ethics approval format

### **Ethics approval(s)**

MREC approved, ref: 09/H1017/115

### **Study design**

Single-centre randomised interventional treatment pilot/feasibility study

### **Primary study design**

Interventional

### **Study type(s)**

Treatment

### **Health condition(s) or problem(s) studied**

Topic: Respiratory; Subtopic: Respiratory (all Subtopics); Disease: Respiratory

### **Interventions**

Triple P parenting seminars and telephone support.

Follow-up length: 9 months

Study entry: registration only

### **Intervention Type**

Other

### **Phase**

Not Applicable

### **Primary outcome(s)**

Paediatric Asthma Caregiver's Quality of Life Questionnaire (PACQLQ), measured at 3 and 9 months

### **Key secondary outcome(s)**

Not provided at time of registration

### **Completion date**

09/01/2012

## **Eligibility**

**Key inclusion criteria**

1. Parents of children with frequent episodic or chronic persistent asthma who are taking regular preventive medication
2. Parents must have an asthmatic child aged 2 - 7 years, either sex
3. Diagnosis of asthma in children, based on:
  - 3.1. An observation of recurrent episodes of wheeze (preferably witnessed by a medical observer)
  - 3.2. A clinical response to a bronchodilator medication (eg. Salbutamol)
  - 3.3. An absence of other rarer lung conditions (e.g., cystic fibrosis, chronic neonatal lung disease) which may account for these symptoms

**Participant type(s)**

Patient

**Healthy volunteers allowed**

No

**Age group**

Child

**Lower age limit**

2 years

**Upper age limit**

7 years

**Sex**

All

**Key exclusion criteria**

1. The child has a significant disability
2. The parents are currently seeing a professional for the child's behaviour difficulties, are currently receiving psychological help or counselling, or have significant learning difficulties. For the purposes of the study, in order to participate in the seminars, parents will be excluded if they don't understand English.

**Date of first enrolment**

01/06/2010

**Date of final enrolment**

09/01/2012

**Locations****Countries of recruitment**

United Kingdom

England

**Study participating centre**
