Study information

Scientific Title

Study objectives

Can GTN effect the healing/recurrence of venous ulcers?

Ethics approval required

Old ethics approval format

Ethics approval(s)

Not provided at time of registration

Primary study design

Interventional

Study design

Prospective randomised single-blind controlled trial

Study type(s)

Treatment

Health condition(s) or problem(s) studied

Cardiovascular

Interventions

Patients randomised into two groups, one with stocking, second with stocking plus GTN ointment. Duplex scan.

Intervention Type

Other

Phase

Not Applicable

Primary outcome(s)

Result of long-term effect of GTN in preventing ulcer recurrence and response rate in the two group subjects.

Key secondary outcome(s)

Not provided at time of registration

Completion date

07/03/2004

Eligibility**Key inclusion criteria**

Not provided at time of registration

Participant type(s)

Patient

Healthy volunteers allowed

No
