Study information

Scientific Title
Does cricoid pressure change the view at laryngoscopy in infants?

Study objectives
Does cricoid pressure change the view at laryngoscopy in infants?

Ethics approval required

Old ethics approval format

Ethics approval(s)

Not provided at time of registration

Primary study design

Interventional

Study design

Randomised controlled trial

Study type(s)

Not Specified

Health condition(s) or problem(s) studied

Not Applicable: Laryngoscopy

Interventions

Blinded crossover study

Intervention Type

Other

Phase

Not Specified

Primary outcome(s)

Estimate of the percentage area of larynx seen at each laryngoscopy by anaesthetist

Key secondary outcome(s)

Not provided at time of registration

Completion date

30/06/2006

Eligibility**Key inclusion criteria**

40 patients under 1 year of age, 40 patients between 1 and 5 years.

Participant type(s)

Patient

Healthy volunteers allowed

No

Age group

Child

Upper age limit

5 Years

Sex

Not Specified

Key exclusion criteria

Does not meet inclusion criteria

Date of first enrolment

01/09/2003

Date of final enrolment

30/06/2006

Locations**Countries of recruitment**

United Kingdom

England

Study participating centre

Royal London Hospital
