Study information

Scientific Title

Study objectives

A psychosocial school-based program is capable of reducing conflict-related psychosocial symptoms, and increasing children's strength to deal with armed-conflict related psychosocial difficulties

Ethics approval required

Old ethics approval format

Ethics approval(s)

Ongoing at ethical review board of Vrije Universiteit Amsterdam as of 09/06/06

Primary study design

Interventional

Study design

Cluster randomisation of schools to intervention (structured school-based psychosocial program) or waitlist condition (receiving treatment after the research)

Study type(s)

Treatment

Health condition(s) or problem(s) studied

Multiple impact of armed conflict on psychosocial wellbeing (post-traumatic stress disorder)

Interventions

Classroom-based structured, manualized psychosocial intervention, called the class-room based intervention (CBI), as designed by the Center for Trauma Psychology (Boston, Massachusetts) versus the waitlist condition.

The CBI entails a 15-session program that encompasses working with the trauma narrative, creative techniques (drama, music), and specifically designed games. The waitlist condition simply entails the provision of treatment after the research is finished.

Intervention Type

Other

Phase

Not Specified

Primary outcome(s)

Post-traumatic stress disorder (PTSD) and depressive symptoms

Key secondary outcome(s)

1. Anxiety
2. Aggression
3. Daily functioning
4. Social support
5. Sociometric measurements (sociogram)
6. Coping

- 7. Family functioning
- 8. Hope
- 9. School functioning (grades, absenteeism)

Completion date

31/05/2007

Eligibility

Key inclusion criteria

Children screened for exposure to traumatic events, post-traumatic stress symptoms or depressive anxiety symptoms, with the use of symptom checklists

Participant type(s)

Patient

Healthy volunteers allowed

No

Age group

Child

Sex

All

Key exclusion criteria

Serious psychopathology and psychiatric disorders (mutism, retardation, psychotic symptoms) or incapability to function in a group (conduct disorders, harming others), as judged by local psychosocial counsellors

Date of first enrolment
