Study information

Scientific Title

Acronym
ADAPTED

Study objectives

Does cryogestic spray provide adequate local anaesthesia for patients undergoing arterial puncture compared with lignocaine and our current practice of nothing.

Ethics approval required

Old ethics approval format

Ethics approval(s)

Not provided at time of registration

Study design

Randomised controlled trial

Primary study design

Interventional

Study type(s)

Not Specified

Health condition(s) or problem(s) studied

Signs and Symptoms: Pain

Interventions

Lignocaine, cryogestic spray or nothing.

Intervention Type

Drug

Phase

Not Specified

Drug/device/biological/vaccine name(s)

Lignocaine, cryogestic spray

Primary outcome(s)

Pain scores for arterial puncture with and without anaesthesia

Key secondary outcome(s)

Not provided at time of registration

Completion date

01/12/2003

Eligibility

Key inclusion criteria

Patients presenting to Emergency Department requiring arterial puncture.

Participant type(s)

Patient

Healthy volunteers allowed

No

Age group

Not Specified

Sex

Not Specified

Key exclusion criteria

Not provided at time of registration

Date of first enrolment

01/06/2003

Date of final enrolment

01/12/2003
