Study information

Scientific Title

Study objectives

Not provided at time of registration

Ethics approval required

Old ethics approval format

Ethics approval(s)

Not provided at time of registration

Primary study design

Interventional

Study design

Randomised controlled trial.

Study type(s)

Diagnostic

Health condition(s) or problem(s) studied

Cardiovascular diseases: Thromboembolic disease

Interventions

Guideline - national guidelines for prophylaxis of deep vein thromboembolism based on systematic review, developed by multi-disciplinary group and evidence-linked recommendations:

1. Educational outreach visits to ward staff
2. Reminder systems at the times of consultation
3. Role substitution involving nursing or pharmacy staff assessing patients' risk status

Intervention Type

Other

Phase

Not Specified

Primary outcome(s)

Not provided at time of registration

Key secondary outcome(s)

Not provided at time of registration

Completion date

01/09/1999

Eligibility

Key inclusion criteria

Health care workers in hospital settings - senior and junior doctors, nurses, pharmacists.

Participant type(s)

Patient

Healthy volunteers allowed

No

Age group

Not Specified

Sex

Not Specified

Key exclusion criteria

Not provided at time of registration

Date of first enrolment

01/09/1997

Date of final enrolment

01/09/1999
