Study information

Scientific Title

Study objectives

What is the clinical effectiveness of two alternative strategies for improving research utilisation in speech and language therapy and which of the two strategies is the most cost effective?

Ethics approval required

Old ethics approval format

Ethics approval(s)

Not provided at time of registration

Study design

Randomised controlled trial

Primary study design

Interventional

Study type(s)

Not Specified

Health condition(s) or problem(s) studied

Cardiovascular diseases: Cerebrovascular disease

Interventions

Not provided at time of registration

Intervention Type

Other

Phase

Not Specified

Primary outcome(s)

Not provided at time of registration

Key secondary outcome(s)

Not provided at time of registration

Completion date

01/11/2003

Eligibility**Key inclusion criteria**

All speech and language therapy departments in the North West region that provide dysphagia services to stroke patients

Participant type(s)

Patient

Healthy volunteers allowed

No

Age group

Not Specified

Sex

Not Specified

Key exclusion criteria

Not provided at time of registration

Date of first enrolment

01/11/2000

Date of final enrolment

01/11/2003

Locations**Countries of recruitment**

United Kingdom

England

Study participating centre

University of Manchester

Manchester

United Kingdom

M13 9PL

Sponsor information**Organisation**
