Scientific Title

Study objectives

Not provided at time of registration

Ethics approval required

Old ethics approval format

Ethics approval(s)

The study protocol was approved by the East London and City Health Authority Ethics Committee and all patients gave written consent.

Study design

Randomised controlled trial

Primary study design

Interventional

Study type(s)

Treatment

Health condition(s) or problem(s) studied

Respiratory tract diseases: Chronic obstructive pulmonary disease

Interventions

1. Exercise plus education
2. Education alone (control)

Education and exercise programmes for the moderately disabled patients were carried out in a hospital out-patient setting. Severely disabled patients were all treated at home. Those in the exercise group received an individualised training programme.
