Primary study design

Interventional

Study design

Randomised controlled trial

Study type(s)

Treatment

Health condition(s) or problem(s) studied

Cardiac catheterisation

Interventions

Subjects will be divided into three groups, one hour prior to cardiac catheterisation:

Group 1: music therapy

Group 2: sensory information

Group 3 (control): no intervention

In the case of groups 1 and 2, each intervention will last approximately 30 minutes. All groups will receive the usual nursing care prior to cardiac catheterisation.
