Study information

Scientific Title

Study objectives
Eakin cohesive paste is safe for use on patients with high output wounds and stomas.

Ethics approval required
Old ethics approval format

Ethics approval(s)
Favourable ethical opinion received 16th September 2005.

Primary study design
Interventional

Study design
Randomised controlled trial

Study type(s)
Not Specified

Health condition(s) or problem(s) studied
Stoma, ostomy, wound and fistula

Interventions
The trial is a randomised cross over trial. Patients will be assigned a patient identity number and will then be randomly
assigned either to begin with their normal pouching regime or their normal pouching regime and Eakin cohesive paste. At the half way point the treatment will be
switched.

Intervention Type
Other

Phase
Not Specified

Primary outcome(s)
Confirmation of the safety and efficacy of Eakin cohesive paste

Key secondary outcome(s)
Determination of whether Eakin cohesive paste increases the pouch weartime on high output wounds.

Completion date
01/10/2005

Eligibility

Key inclusion criteria
Patients presenting wounds, stomas and fistulae with greater than 200 ml exudate per day.

Participant type(s)
Patient

Healthy volunteers allowed

No

Age group
Adult

Sex
All

Key exclusion criteria
Patients will be excluded from the study under the following circumstances:
1. Where informed consent is withheld
2. Where the patient is unable to give informed consent due to legal incompetence
3. Where, in the physician's opinion, inclusion in the trial is not advised
4. Where the patient is presenting a critical wound, or is in an emergency situation
5. Where the patient is in the intensive care unit
6. Where there is an open wound in the peristomal region (for stoma patients only)
7. Where the patient is currently participating in another clinical trial
8. Where the patient has a known sensitivity to the product or any of its ingredients
8. Where the patient currently uses stoma paste as part of their regular pouching regime

Date of first enrolment
01/06/2005

Date of final enrolment
01/10/2005
